**MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEARS ENDED DECEMBER 31, 2019 and 2018  
(UNAUDITED)**

The management's discussion and analysis of the Hayden Run Community Development Authority, Franklin County, Ohio (the Authority), financial performance provides an overall review of the Authority's financial activities for the fiscal years ended December 31, 2019 and 2018. The intent of this discussion and analysis is to look at the Authority's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the Authority's financial performance.

**Financial Highlights**

1. The Authority encourages the orderly development of a well-planned, diversified community initially of approximately 28 acres in Franklin County, including the City of Columbus.
2. Net position at December 31, 2019 totaled \$9,288. Net position at December 31, 2018 totaled \$10,628. Since inception, the construction of the infrastructure improvements have been managed by the City of Columbus. The Authority has an agreement with the City of Columbus whereby the Authority provides the City with all its resources collected from the bi-annual community charge, except amounts needed to pay the Authority's operating expenses. The City of Columbus also issues any long-term debt bonds needed to finance the infrastructure improvements. Accordingly, these long-term bonds are financed partially with the proceeds received from Authority payments to the City of Columbus.

**Overview of the Financial Statements**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Authority's financial activities and financial position. The *Statement of Net Position* and *Statement of Revenues, Expenses, and Changes in Net Position* provide information about the activities of the Authority, including all short-term and long-term financial resources and obligations. Enterprise accounting uses a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities are included in the Statement of Net Position. The Statement of Net Position represents the financial position of the Authority. The Statement of Revenues, Expenses, and Changes in Net Position presents increases (e.g., revenues) and decreases (e.g., expenses) in net position. The Statement of Cash Flows reflects how the Authority finances and meets its cash flow needs. Finally, the notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

Changes in Net Position answer this question. These statements include *all assets, liabilities, deferred inflows and outflows of resources, revenues, and expenses* using the *accrual basis of accounting*, similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the Authority's *net position* and changes in net position. This change in net position is important because it tells the reader that, for the Authority as a whole, the *financial position* of the Authority has improved or declined. The causes of this change may be the result of many factors, some financial, some not. These statements can be found on pages 6 and 7 of this report.

The Statement of Cash Flows provides information about how the Authority finances and meets the cash flow needs of its operations. The Statement of Cash Flows can be found on page 8 of this report.

The basic financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

**Community Charge Revenues**

The Authority had increases in community charge revenues for all three years presented. Revenues from Community Development Charges paid by each owner of a chargeable parcel will be used to pay the cost to construct needed infrastructure located within the Authority. The Community Development Charge is calculated on thirty-five percent of the assessed value of chargeable property, which includes buildings, structures, and improvements. The Community Development Charge is currently levied at 4 mills. The amount of revenue will increase in years when available parcels are sold and improvements are made, thus increasing the total assessed value of chargeable property.

**Change in Net Position**

Although revenues from Community Development Charges increased for all years presented, there has been fluctuation in the change in net position. This is more a function of changes in operating expenses and payments to the City of Columbus. This is also a reflection that the Authority has an agreement to pay the City of Columbus all collected resources except for amounts needed to pay operating expenses.

During the fiscal years 2019 and 2018, the Authority transferred \$564,267 and \$487,844, respectively, to the City of Columbus as provided by this agreement.

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEARS ENDED DECEMBER 31, 2019 AND 2018

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED**

The Authority distinguishes operating revenues and expenses from non-operating activities. Operating revenues and expenses generally result from providing services and producing and delivering goods or services in connection with the Authority's primary operations. All revenues and expenses not considered operating are reported as non-operating revenues and expenses.

**C. Cash and Investments**

Cash received by the Authority is deposited with a financial institution. Deposit and investments having an original maturity of three months or less at the time they are purchased are presented in the financial statements as Cash and Cash Equivalents.

**D. Net Position**

Net position represents the difference between assets and liabilities. Net position is reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the Authority or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The Authority first applies restricted resources when an expense is incurred for which both restricted and unrestricted net assets are available. The Authority had no restricted net assets at fiscal years end 2019 and 2018.

**E. Operating Revenues and Expenses**

Operating revenues are those revenues that are generated directly from the primary activity of the Authority. For the Authority, these revenues are community development charges. Operating expenses are the necessary costs incurred to provide the service that is the primary activity of the Authority. All revenues and expenses not meeting this definition are reported as non-operating.

**F. Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**G. Federal Income Taxes**

The Authority is exempt from federal income taxes under IRS regulations.

FRANKLIN COUNTY

NOTES TO THE FINANCIAL STATEMENTS

**NOTE 3 – COMMUNITY DEVELOPMENT CHARGE**

The Authority can levy an annual community development charge (the charge) up to 4 mills on the assessed value of all subject property within the Authority. The charge is currently levied at 4 mills. Charge revenue recognized represents the amount levied and payable on August 31 of each year.

Charge assessments are levied in August on the assessed values certified by the Franklin County Auditor the second Monday in September. The assessed value is established by state law at thirty-five percent of the current market value. Property is levied the tax one year after the Authority receives a Certificate of Occupancy from the City of Columbus. Market values are determined by the Authority based on the current County Auditor's appraisal values or building permit values on occupied homes that have not yet been appraised by the County Auditor.

The assessed value of real property upon which the August 2019 and 2018 community development charges were based was sufficient enough to generate community charge revenues of \$581,166 and \$509,003 for the years ended December 31, 2019 and 2018, respectively.

**NOTE 4 – RECEIVABLES**

Receivables at December 31, 2019 and 2018 consisted of unpaid community development charges. All receivables are considered collectible.

These transfers are made to help fund the costs of road improvements, described as HR-2, which the City of Columbus is making within the Authority. **NOTE 6 – CONTINGENT LIABILITIES**

There are no claims or lawsuits pending against the Authority.

**NOTE 7 - RISK MANAGEMENT**
